MONEY, BONDS AND STOCKS. A Dell but Strong Market, with Occasional

Spurts of Activity. NEW YORK, June 14 .- Money on call was easy at 1} 22 per cent., the last loan being made as 15 per cent; closing at 1215 per cent Prime mercantile paper, 4 26 per cent.

Steeling exchange was dull and unsettled. wish actual business at \$4.86? for sixty-day bills and \$4.88 for demand.

The total sales of stocks to-day were 166,769 shares, including the following: Delaware, Teckawanna & Western, 6,550; Eric. 10,320; Lake Shore, 5,925; Missouri Pacific, 5,930; Northwestern, 6,570; Northern Pacific preferred 3,220; Reading. 35,700; St. Paul, 26,339; Texas Pacific, 4,410; Union Pacific, 9,050; Western

Union, 5,370. The stock market was dull but generally Corn-Juno.... strong to-day, subject to spurts of activity in There was no news of a character to have much effect upon values, but there was a general sen-timent in favor of better figures and a disposi-tion to buy to a limited extent, while, on the other hand, the new tariff promulgated by the Lews commissioners was found, upon further examination, not to be as favorable as was at first supposed, and there were further eggage-ments of gold for export. Missouri Pacific be-came the feature of the trading late in the day, while New England at the opening was conspicu-cus for its activity and strength. The Grangers seemed to be well supported, though was considerable manipulation of St. Paul by parties trying to accumulate stock, and Rock Island exhibited and lifeless; No. 2 spring wheat, 80½ 281c; No. 2 red, 82 2824c; No. 2 corp. 494c; No. 2 oats, 314c; No. 2 rye, 56c; No. 2 barley. forences from Saturday's closing prices, and a seed, \$2 15 @ 2 20; mess pork, per bri, \$13.75;

ome weakness late in the day. The opening advances being made over the entire list in the first half bour. The traders then indulged in little hammering, though the effect produced became dull and featureless throughout, and as the pressure was removed prices again crawled upward. After noon there was a marked improvement in the tone of the dealings. Missouri Pacific came into prominence, and before 2 P. M., had advanced nearly 2 per cent. The best prices were attained about 2 o'clock, after which time there was very little cature to the trading, and the market finally closed quiet and firm at or near the best figures reached. Among the unlisted securities American Cotton-oil was again active, and, while strong at first, reacted later and closed with very little change. The final changes are generally in the direction of higher prices, but they are confined to small fractions, except in the case of lissouri Pacific, which advanced I per cent.

The railroad bond market was quiet to dull, except in the Texas Pacific seconds and the Nickel-plate firsts, which furnished \$125,000 ad \$118,000, respectively, out of a total day's ess of \$1,254,000. The tone of the trading was firm, but the changes in quotations were confined to small fractions only, except in the few cases mentioned below. Central Iowa first certificates rose 14. to 764; Morris & Essex firste, 2, to 142, and Ohio Southern incomes, 2,

CHICAGO, June 18 -Fifteen minutes before the close of the regular session, July wheat was

81 to a point better than the Saturday closing, in-

dicated no very soft market, whatever may be in store for the future. One operator, who sold the bulk of his wheat at much higher prices, showed his hand by changing, it is estimated, 1.000,000 bushels from July to August to-day.

The offering of the July, together with the com-

close. In corn, as in wheat, the sellers of last week were the buyers to-day. While the mar-

ket opened surprisingly weak, the large lines of property which were expected to come out on stop orders were not sacrificed. After a mo-

mentary break to 49 ic at the start, July improved to 51 i, and kept fairly steady around 50c, where it closed. Oats were fairly firm after the opening, and the closing price for July was, as on Saturday, 32 ic. The range was 31 ic to 33 i. There was fair business in pork, and prices advanced 17 ic to 22 ic, the closing prices being at

almost outside prices, and 124c above the last

sales Saturday. July ranged at \$13.60 @ 13.824.

INDIANAPOLIS MARKETS

Business Slow in Nearly All Avenues of Trade. but Prices, as a Rule, are Firm.

INDIANAPOLIS, June 18.

In all departments trade moves sluggishly, unless it be in produce. New potatoes found a good outlet to-day at last week's rates, but in the afterpart of the day a weakening tendency in prices was noticeable. Cabbage continues in light supply, with prices strong. Much to the surprise of the commission mee, eggs continue in strong position and ruling firm at quotations. There is a stronger feeling in poultry, but not sufficient to bring an advance in prices. Receipts only moderate. Choice butter rules firm; poor stock difficult to dispose of at any price above that of grease. There is a moderate movement in provisions, at easier prices. Lemone are in good demand at the advanced prices of to-day. Oranges, but few in the market and selling at high figures. Pineapples are plenty and cheap. Strawberries in good supply and prices weak; some choice berries were sold toat \$2 per crate of twentyquarts, and some as \$1.50 per crate. Black and red raspberries coming in slow; prices firm. Grocers had a good order trade to-day and no changes are noted in prices. Sugars and coffees both firm at quotations. Dullness is still a characteristic of the wool market, which is in a great measure due to uncertainty. It is not expected that any improvement will be shown before the latter part of July or early in August. The Boston Herald says that were the tariff question decided, either

and the result will be the shutting down of the mills as fast as the end of orders is reached. The prospectafor the usual July and late-in-theseason orders is very poor. For these reasons manufacturers are not inclined to buy wool.

The movement of grain throughout local circles has been mry light for the past forty-eight hours, the inspetor's report showing but eighteen cars. Whee is very dull, weak and lower. with only a fir inquiries for track receipts. Some millers at offering their arrivals at 88c on track. Cornvery weak and in poor demand. For No. 2 mixeden call 45c was bid, but track ear rather slow, with light trading. Oats are very quiet. No much doing. A slight demand for city trade is apparent. Bran quiet. Hay steady and firm. Track bids ruled as follows:
